

Interprovincial Billing Well Newborn Rate

Payment and billing of services provided on or after April 1, 2024

For a well newborn, bill \$1,147 per day. Well newborns are defined as those newborns that receive care under the diagnostic code Z38*** series only.

When a newborn receives standard ward patient care, the authorized standard ward per diem rate may be billed. When a newborn receives care in an intensive care unit, the authorized intensive care unit per diem rate may be billed. The well newborn rate is not billed when the authorized standard ward and/or the intensive care unit per diem rate is billed.
